

MIPATEX HDPE VERMI BED

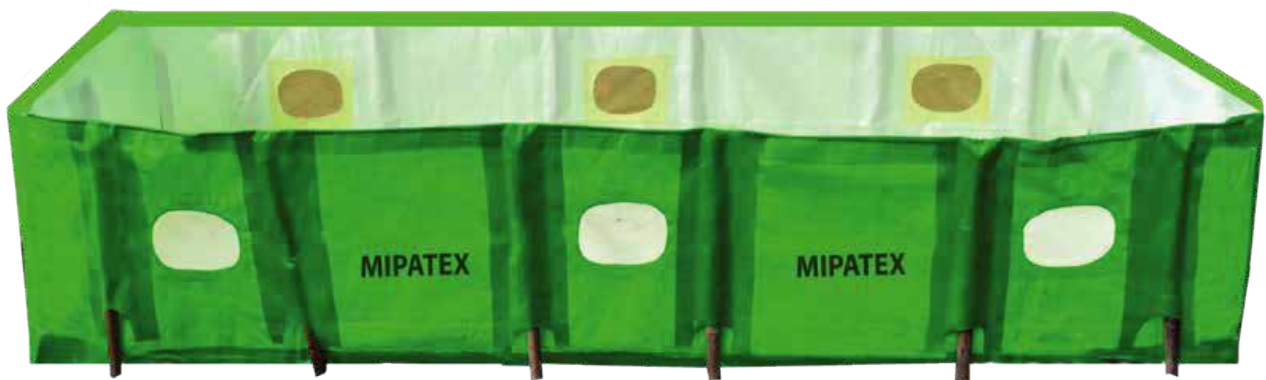

MAKE YOUR OWN COMPOST

www.mipaindustries.com

OVERVIEW

Mipatex Vermi Bed Made from lightweight reinforced HDPE flexible fabrics having high tensile strength, tear and puncture resistance, UV stabilized, the vermicompost bed is portable and can transport anywhere. This feature makes it simple to set them up in difficult-to-access or remote locations. It can be relocated and reused many times.

FEATURES:

HDPE

Make Your Own
Organic Compost

Modern Technology

UV stabilized

Recyclable Material

Washable

Durable

Tear-Resistant

Easy to Lay

FEATURES & BENEFITS

Sturdy, Durable Construction: Mipatex vermi beds are made from high tensile HDPE laminated fabrics that are UV-resistant, tear-resistant, and crack-resistant, corrosion-resistant, weather-resistant, sturdy, and durable for long-lasting service life.

Outstanding Aeration: Aeration windows for air circulation enable the compost to keep up the best possible moisture and oxygen levels for vermi worm to work at top productivity and ensure fastest decomposing to produce healthy, finished compost in just weeks.

Easy to Install: Heat-sealed fitted pockets are made to insert pegs or pipes to keep vermi beds stand upright, making installation very easy and quickly moving and reinstalling.

Vermiwash: An outlet is given at the bottom of the vermi bed to collect vermiwash. This fluid can be used as an organic pesticide as well as fertilizer.

UV Stabilise: Our top-quality UV stabilizers shield the vermi bed from degradation from direct sunlight and other weather conditions.

Environment Friendly: Composting can divert as much as 30% of household waste into natural fertilizer. Diverting this waste from landfills means that our landfills will last longer. Use your wastage in your garden or farm for organic nutrient fertilities that help planet earth.

FIELDS OF APPLICATION

Vermi bed is designed to produce organic compost with a vermi worm's help. It assists in converting green waste into highly fertile organic fertilizer known as vermicompost. Vermicomposting is an essential process for organic cultivation which guarantees organic farming without chemical fertilizers.

PRODUCT RANGE

Product	Size	Mass	Volume	Capacity
MVB-350L	12ft (L) × 4ft (W) × 2ft (H)	350 GSM	96 Cubic Ft	2.5 Ton
MVB-350M	10ft (L) × 4ft (W) × 2ft (H)	350 GSM	80 Cubic Ft	2 Ton
MVB-350S	8ft (L) × 4ft (W) × 2ft (H)	350 GSM	64Cubic Ft	1.5 Ton
